Over *two* decades of development

Adilas

Your Entire Business Enterprise in the Palm of Your Hand—Saving You Money.

Adilas is the all-in-one business management platform that brings everything you need together—so you can run smarter, save more, and focus on what matters most.

ONE PLATFORM. EVERYTHING YOU NEED.

- INVENTORY MANAGEMENT**
Track stock in real time and never run out.
- SALES & CRM**
Manage customers, leads, and relationships.
- PURCHASING - VENDORS**
Simplify purchasing and manage vendors.
- ACCOUNTING & FINANCE**
Handle finances, invoices, payments, and more.
- REPORTING & ANALYTICS**
Make data-driven decisions with powerful insights.
- MULTI-LOCATION SUPPORT**
Manage multiple locations from one place.

And So Much More!

SAVE MORE. GROW FASTER.

Adilas helps you cut costs, eliminate manual work, and increase efficiency across every part of your business.

- ✓ Reduce operating costs
- ✓ Automate tasks and save time
- ✓ Minimize errors and waste
- ✓ Improve productivity
- ✓ Increase profitability

2023-2026

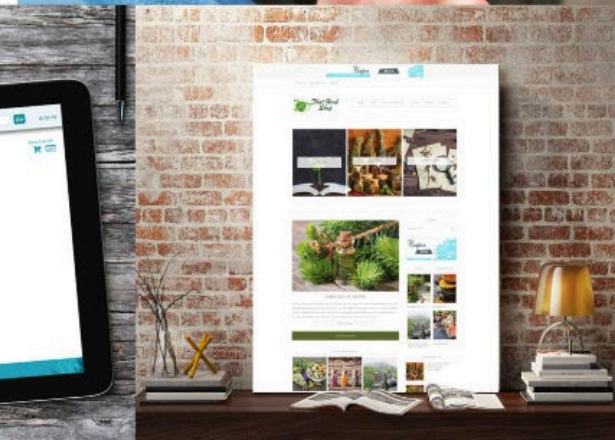

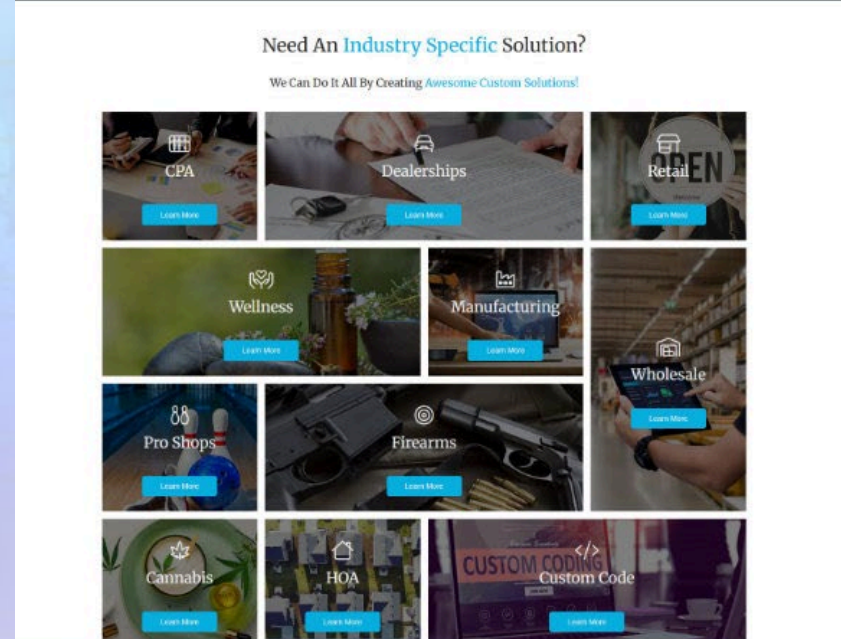

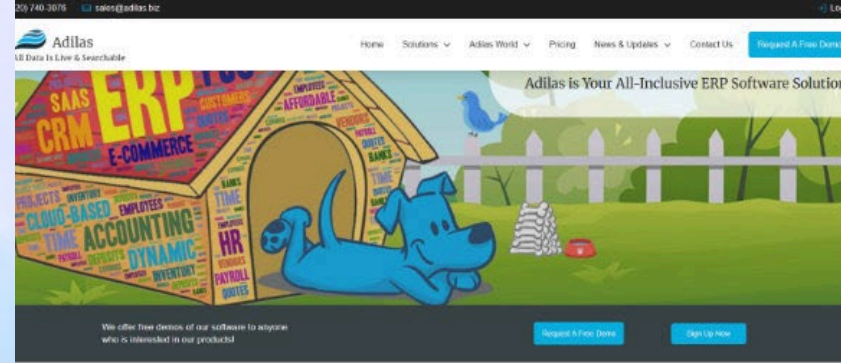

2017-2023

2008-2017

TAKE CONTROL. SAVE MONEY.
BUILD YOUR FUTURE WITH ADILAS.
All the power of an enterprise system - without the enterprise price.

What Do We Offer?

- Online SaaS
- Software as a Service
- Operations
- Accounting
- Standard Package
- Custom Code
- Start Small → Expand
- Great Pricing

Common Practices

- Disconnected Systems
- Data All Over The Place
- Batching & Time Gaps
- Dead Ends
- Duplicate Data
- Legacy Systems
- Manual Processes
- Hopefully Gets United??

TOP PROBLEMS BUSINESSES FACE

Common challenges. Real impact.

How Adilas Works!

- Kick-butt Data Engine
- Interconnected Pieces
- Relationships
- Business Logic
- Transactional Data Core
- Configurable
- Expandable
- You Get It All!

SYSTEMIZED MODEL

Connected. Unified. Flowing.

Inside Every World...

You get the...
"Transactional Data Core"

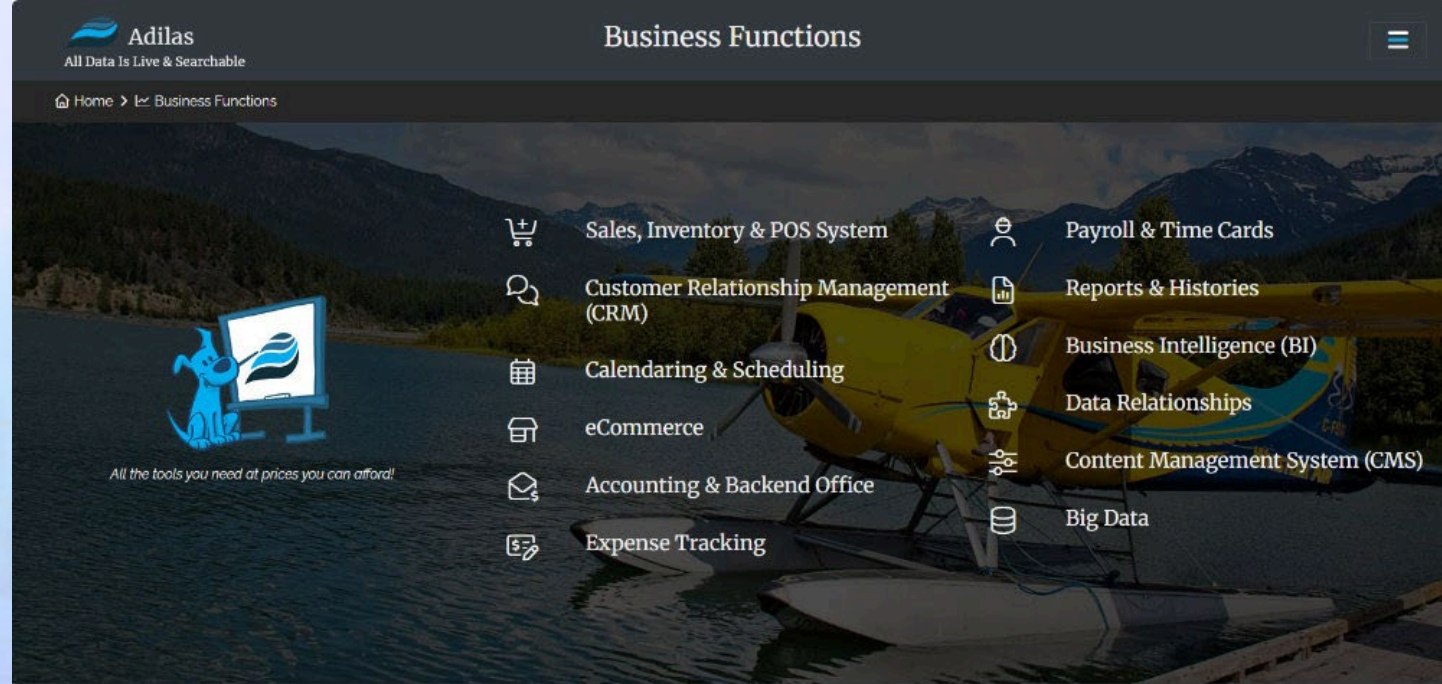

Once you have the core...
everything becomes possible
inside of one connected system!

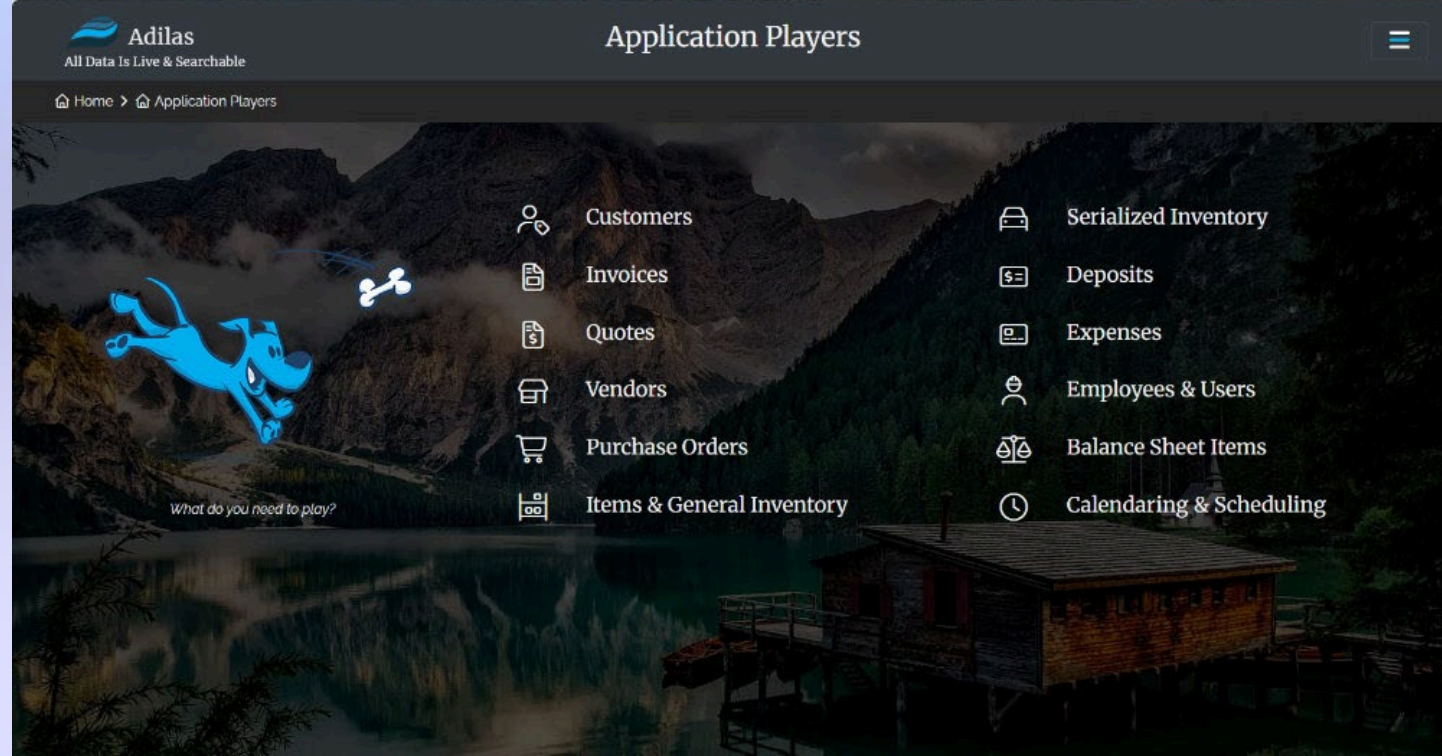

Functions & Players

- POS, CRM, ERP, Inventory Tracking, eCommerce, Scheduling, Accounting, and so much more.
- Use Players to get Business Functions

The screenshot shows the 'Business Functions' page of the Adilas application. The header includes the Adilas logo and tagline 'All Data Is Live & Searchable', the page title 'Business Functions', and a navigation breadcrumb 'Home > Business Functions'. The main content area features a central graphic of a blue dog pointing at a screen with the text 'All the tools you need at prices you can afford!'. To the right, there is a grid of 12 business function categories, each with an icon and a text label: Sales, Inventory & POS System; Customer Relationship Management (CRM); Calendaring & Scheduling; eCommerce; Accounting & Backend Office; Expense Tracking; Payroll & Time Cards; Reports & Histories; Business Intelligence (BI); Data Relationships; Content Management System (CMS); and Big Data.

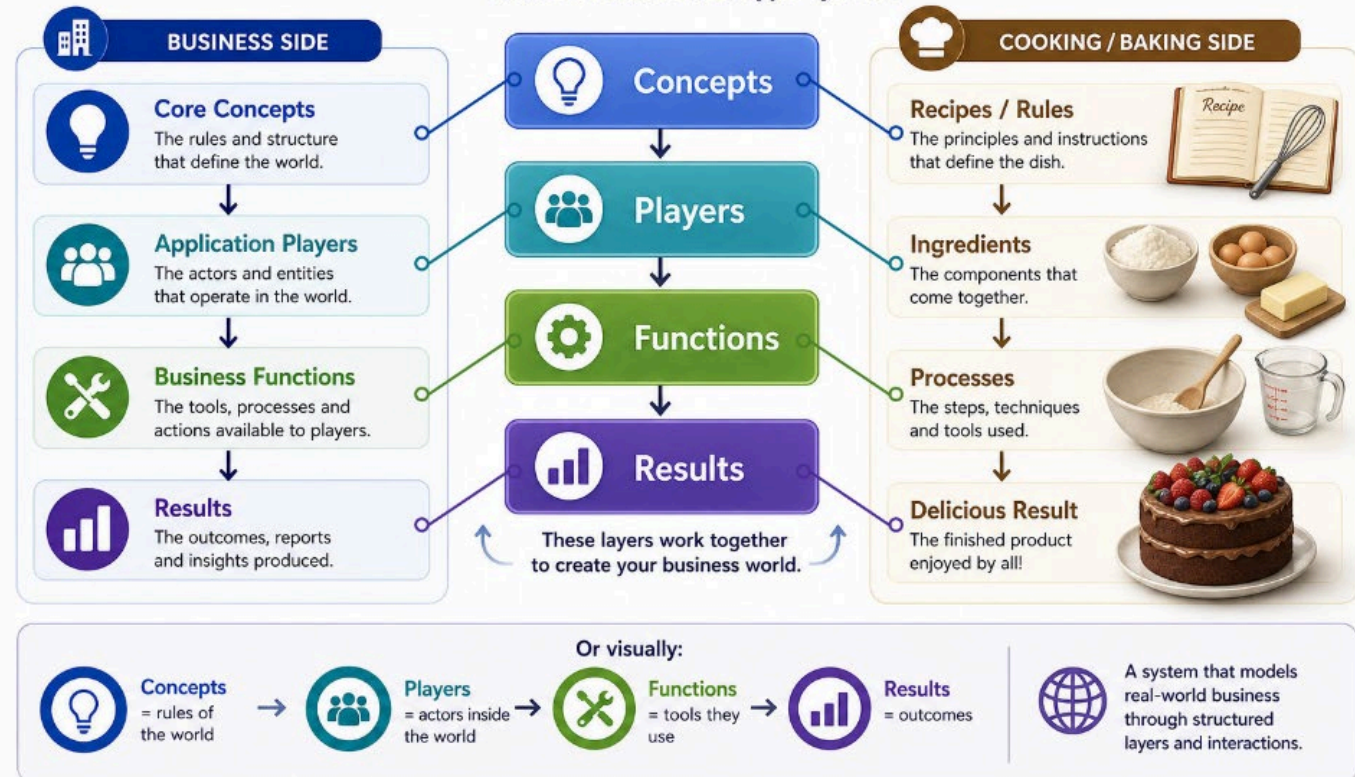

The screenshot shows the 'Application Players' page of the Adilas application. The header includes the Adilas logo and tagline 'All Data Is Live & Searchable', the page title 'Application Players', and a navigation breadcrumb 'Home > Application Players'. The main content area features a central graphic of a blue dog jumping with a bone, with the text 'What do you need to play?'. To the right, there is a grid of 12 application player categories, each with an icon and a text label: Customers; Invoices; Quotes; Vendors; Purchase Orders; Items & General Inventory; Serialized Inventory; Deposits; Expenses; Employees & Users; Balance Sheet Items; and Calendaring & Scheduling.

Concepts & Recipes

- To get results, you have to start mixing.
- Use Players

- Process Efficiency
- Business Intelligence
- Strategic Insight
- Accountability
- Revenue Expansion

Strong Ground. Strong Results.

When your foundation is **rich**, every part of your business grows.

Looking Ahead...

- Connected
- Intelligent
- Conversational
- Automated
- Community Driven
- Platform Refinement
- Ecosystem Growth
- World Building

Adilas: The Platform You Can Build On

Start simple and expand from there.

1 START SIMPLE

Everything begins with a solid **Transactional Data Core**.

TRANSACTIONAL DATA CORE

Your central hub for all data, events, and business activity.

2 EXPAND AS NEEDED

Add **Value Add-On Core** layers to fit your needs.

VALUE ADD-ON CORE LAYERS

- | | |
|---------------------------|---------------------------|
| 1 Transactional Data Core | 4 Business Intelligence |
| 2 Industry Specific Skins | 5 Enterprise (Unlimited) |
| 3 Custom Code | 6 Artificial Intelligence |
- Add only what you need. Grow with confidence.

3 BUILD ON THE PLATFORM

Extend, integrate, and innovate. The possibilities are unlimited.

Build your world. Your way.
We provide the foundation.

One reliable core.
All your data connected.

Add what you need.
Scale without limits.

Build without limits.
Innovate for tomorrow.

 **Adilas**
All Data Is Live & Searchable

Tips from Steve,

one of the co-founders of **adilas**

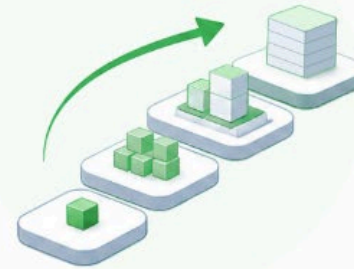

1

Look at what
we have — deep, deep

“There’s a lot here.”

2

We are
building daily —
progression

“We keep building.”

3

We help you by
bringing value —
multiple ways

*“Low cost, flexibility, and
allowing businesses to shape
the system their way.”*
